

1. Frontend Continuous Integration

The screenshot shows the GitHub Actions interface for the 'movie-picture-pipeline' repository. The workflow 'Frontend Continuous Integration #6' is displayed, showing a successful run triggered manually 1 minute ago. The status is 'Success' with a total duration of 1m 30s. The workflow steps are: Frontend Lint (27s), Frontend Tests (35s), and Frontend Docker Build (49s). The workflow file 'frontend-ci.yaml' is shown, and the annotations section indicates 3 warnings and 3 notices, including a deprecation warning for Node.js 20.

Frontend Continuous Integration #6

Manually triggered 1 minute ago | Status: Success | Total duration: 1m 30s | Artifacts: -

frontend-ci.yaml
on: workflow_dispatch

Frontend Lint 27s → Frontend Docker Build 49s

Frontend Tests 35s

Annotations
3 warnings and 3 notices

Frontend Lint
Node.js 20 is deprecated. The following actions target Node.js 20 but are being forced to run on Node.js 24: actions/checkout@v4, actions/se...

2. Backend Continuous Intefration

The screenshot shows the GitHub Actions interface for the 'movie-picture-pipeline' repository. The workflow 'Backend Continuous Integration #7' is displayed, showing a successful run triggered manually 2 minutes ago. The status is 'Success' with a total duration of 1m 22s. The workflow steps are: Backend Lint (32s), Backend Tests (30s), and Backend Docker Build (45s). The workflow file 'backend-ci.yaml' is shown, and the annotations section indicates 3 warnings and 3 notices, including a deprecation warning for Node.js 20.

3. This cloud lab is currently unavailable because the underlying course has expired.
Udacity-Cloud-Resource-Expired

The screenshot shows a web browser window with the URL `learn.udacity.com/nd0002-atci-devops?version=1.2.11&partKey=fa373ad7-4578-40e7-a6b7-b4dbd1d86746&lessonKey=9c3511e7-1900-465f-...`. The browser's address bar and tabs are visible at the top. The main content area is a Udacity interface for a project submission. On the left, there is a sidebar with a list of steps under the heading "DevOps for ATCI". The "Submit Project" step is highlighted with a "NEEDS UPDATE" label. The main area shows a "Resubmit Project" form with a list of project options: "Student_manage_sys_Django", "Students_manage_sys_Mysql", "Resume", "Netflix-Clone", "Abhimanyu-Giri", and "Emotion-And-Activity-Based-Music-Player". A modal dialog titled "Cloud Resources" is open in the center, displaying the message "Your Cloud Resource is inactive" and "Remember to check back here to monitor your budget allocation. [Learn More](#)". Below this, there are two buttons: "Start Cloud Resource" and "Open Cloud Console". A red error message states: "This cloud lab is currently unavailable because the underlying course has expired. Please contact support." At the bottom of the modal, there are three checkboxes for terms and conditions, all of which are checked. A "Submit" button is located at the bottom of the modal.

I affirm that I have read Udacity's definition of [plagiarism](#), and that this submission is my own work.

I have correctly attributed all content obtained from other sources, such as websites, books, forums, blogs, GitHub repos, etc.

I understand that Udacity actively checks submissions for plagiarism and that failure to adhere to the [Udacity Honor Code](#) may result in the cancellation of my enrollment.
